Why Rescue Trade™?

Rescue Trade OHG was founded in 2004 as a pioneer in the field of medical disposable bedding. As a registered medical device manufacturer in Europe (BfArM/Eudamed) and the USA (FDA), we specialize in the development, manufacture, and worldwide distribution of high-quality single-use bedding solutions for medical use.

Our product portfolio is divided into three categories: Bed Set, Transfer Sheet, and Transport Sheet – essential products designed for the safe transport and short-term, cost-effective, hygienic, and comfortable care of bedridden patients.

Our quality management system has been certified according to ISO 13485 by DQS Med, a designated Notified Body under the European Medical Device Regulation (MDR). All products are subject to rigorous quality control and are developed and manufactured in accordance with the highest international standards.

The right solution for every Emergency

RESCUE TRADE™

Disaster Relief: Rapid Assistance in Emergency Situations!

IN TIMES OF CRISIS AND DISASTER, EVERY MINUTE COUNTS.

When people are in need, rapid and effective assistance is essential. Rescue Trade™ provides innovative solutions to respond quickly and efficiently to the demands of disaster scenarios.

Our products are specifically designed to deliver critical hygiene and sleeping arrangements in a wide range of emergency situations.

MINUTE MATTRESS

Fast inflation: Thanks to its patented technology, the mattress can be fully inflated in just a few minutes - providing a comfortable sleeping surface immediately.

Emergency Shelter: Ideal in crisis sitations where a quick and reliable sleeping solution is urgently needed.

The Soku Minute Mattress offers both time and cost savings:
1. Time-Saving: The quick inflation saves valuable time compared to conventional mattresses, which often require longer setup or delivery.

2. Cost-Saving: It's compact storage and easy transport help reduce logistics and storage costs in the long term.

These benefits make the Minute Mattress a practical and cost-efficient solution for a wide range of temporary sleeping needs.
