

Technical Data Sheet

Rescue Trade Transport Sheet

Basic UDI-DI: 426072773RT-TRANSPORT9G

Rescue Trade Disposable Transport Sheet

Item: RTETT

Description and Application

The patient transport sheet is designed to assist paramedics, emergency medical technicians (EMTs) and healthcare personnel in transporting immobilized patients from areas that are difficult to access with conventional stretchers or in transferring patients from one surface to another. The patient transport sheet is intended for short term single use.

Due to the tear-resistant carrying surface, the transport sheet enables the rescue and recovery of lying patients up to 150 kg.

Material and Characteristic

- Color: white
- 12 Handels
- Size: approx. 200x70 cm
- 1 Layer PE 230g/m²
- Individually hygienically and space-savingly packed in polybags

Packaging Information

- Unit:

 = 30 pcs/ctn

 = 30 ctn/Pallet

- Carton Size: approx. 60x40x40 cm
- Net Weight Ctn: approx. 16 kg
- Gross Weight Ctn: approx. 17 kg

Additional Information

MD Medical Device Class I according to EU Regulation 2017/745 MDR

- GTIN Carton: 4260727730390
- GTIN Pieces: 4260727730871

- GMDN-Nummer: 37165
