

## Technical Data Sheet

### Rescue Trade Transfer Sheet

Basic UDI-DI: 426072773RT-TRANSFER6S

### Rescue Trade Disposable Sheet

Item: RTEUBT2180B

#### Description and Application

The disposable patient transfer sheet (slide sheet) minimizes friction and/or shear when transferring a patient in healthcare facilities, such as hospitals, ambulances, patient transports and nursing homes, as well as in home care. A friction-reducing transfer sheet contributes to the reduction of risk of injury to the patient associated with manual handling.

Do not use for carrying.

#### Material and Characteristic

- Color: blue
- Size: approx. 210x80 cm
- Load capacity: up to 150kg
- Absorbent to 2,5l
- Sheet: PP-nonwoven: 50g/m<sup>2</sup> + PE: 25g/m<sup>2</sup>
- Absorbent Core: Cellulose 18g/m<sup>2</sup> + 27g SAP and 92g Fluff Pulp
- Individually hygienically and space-savily packed in polybags

#### Packaging Information

- Unit:

= 50 pcs/ctn

= 20 ctn/Pallet

- Carton Size: approx. 60x40x40 cm
- Net Weight Ctn: approx. 15 kg
- Gross Weight Ctn: approx. 16 kg

#### Additional Information

**MD** Medical Device Class I according to EU Regulation 2017/745 MDR

- GTIN Carton: 4260727730529
- GTIN Pieces: 4260727730796
- GMDN-Number: 37163
